

PAN

Lab on Digital Text Forensics and Stylometry

pan.webis.de

Shared Tasks at PAN 2022:

- **Authorship Verification across Discourse Types**
Given two documents, determine if they are written by the same author.
- **Profiling Irony and Stereotype Spreaders on Twitter**
Given a Twitter timeline, determine if it spreads irony and stereotypes.
- **Style Change Detection**
Given a document, determine where the author changes.
- **Trigger Detection**
Given a document, determine if it contains triggering content.
